<b>Penalty Fees</b>	
• <b>Late Payment</b>	Up to <b>\$37</b>
• <b>Returned Payment</b>	Up to <b>\$37</b>

**How We Will Calculate Your Balance:** We use a method called “average daily balance (including new transactions)”. See your account agreement for more details.

**Billing Rights:** Information on your rights to dispute transactions and how to exercise those rights is provided in your account agreement.

**How We Will Calculate Your Variable APRs:** The interest rate that will apply to your Purchase and Cash Advance balances will vary based on the application of an index and margin. Variable rates may change when the Prime Rate changes. We calculate each variable rate by adding a margin to the Prime Rate published in The Wall Street Journal on the second business day of each month. If The Wall Street Journal is not published on that day, then we will use the Prime Rate published in the immediately preceding edition. If the Prime Rate changes, your new rates will take effect on the first day of your next billing cycle.

**Prime Rate:** Rates disclosed are in effect as of 10/8/2024. Increases in the Purchase APR or Cash Advance APR will result in an increase to the interest you will pay and in your minimum periodic payments.

**Purchase APR:** Your Purchase APR will vary based on changes to the Prime Rate. We add a margin of **17.49%** to the Prime Rate of 8 and the result is your Purchase APR. The monthly periodic rate of INTEREST CHARGES is 1/12th of the Purchase APR, or **25.49%**

**Cash APR:** Your Cash Advance APR will vary based on changes to the Prime Rate. We add a margin of **17.49%** to the Prime Rate of 8 and the result is your Cash Advance APR. The monthly periodic rate of INTEREST CHARGES is 1/12th of the Cash Advance APR, or **25.49%**

**Military Lending APR:** Federal law provides important protections to members of the Armed Forces and their dependents relating to extensions of consumer credit. In general, the cost of consumer credit to a member of the Armed Forces and his or her dependent may not exceed an annual percentage rate of 36 percent. This rate must include, as applicable to the credit transaction or account: The costs associated with credit insurance premiums; fees for ancillary products sold in connection with the credit transaction; any application fee charged (other than certain application fees for specified credit transactions or accounts); and any participation fee charged (other than certain participation fees for a credit card account).
